Subject: Application for Software Engineer Program- Full-Time

Dear Sir/Madam

I am writing to express my interest for the Software Engineer Program- Full-Time at JPMorganChase. As a third year **Computer Science Engineering** student at Anurag University with a **CGPA of 8.89**, I am eager to apply my technical skills to contribute to your team. My academic background and problem solving abilities makes me a strong candidate for this role.

My proficiency in **Python, C, Java, JavaScript, HTML, CSS, React.js, Node.js, Express.js, Data Structures & Algorithms** along with hands-on experience in **MySQL , MongoDB, Object-Oriented Programming** and data analysis tools like **NumPy, Pandas and Matplotlib** enables me to develop efficient and scalable solutions. I have been consistent in solving coding problems across various programming platforms, improving my problem-solving ability.

I have developed impactful projects that demonstrate my ability to build scalable and intelligent applications. I created **Farm Care**, an AI-powered crop diagnosis tool leveraging image analysis, real-time weather APIs, and ML-based recommendations for precision agriculture. I also built **Rozgaar-AI**, an ATS-driven resume analysis system integrating resume parsing, keyword matching, and Gemini API-based optimization features. Additionally, I developed a **MERN-based blog platform** with robust role-based access control, secure CRUD operations, and structured content workflows, showcasing my expertise in full-stack development and system design.

I hold industry-recognized certifications including Microsoft Certified: Power BI Data Analyst Associate (PL-300), NPTEL certification in Database Management Systems(Elite) and Introduction to Operating Systems, and Data Science for Beginners by Board Infinity, reflecting my strong foundation in data, analytics, and core computer science concepts. Along with my team, I created an initial version of **AgriConnect**, a smart agriculture platform and our project was selected as **one of the winners** in the **Internal Hackathon of Smart India Hackathon (SIH)**.

I am eager for the opportunity to contribute my technical skills and problem-solving abilities to JPMorganChase. Given the firm's commitment to innovation and excellence, I am confident that my background in software development and data analysis aligns well with your team's goals. I am eager for the possibility of discussing how my skills and enthusiasm align with your organization's goals. Thank you for your time and consideration. I look forward to your response.

Sincerely,

Dadi Alekhya
